

I am an experienced and creative Graphic Designer, and I am passionate about what I do. During my career I have been fortunate to have worked with multi-national clients in the eCommerce, Creative Education, Design Agency, Property and Print industries which have helped to expand my skillset and develop my knowledge of the design process.

TESTIMONIALS

Kieran joined the team at it's inception and proved an invaluable hire. His technical expertise and ability to read the briefs and produce high quality output within the deadline demands was outstanding. Although the briefs where for the UK region, his work was picked up for use in the EU and International departments. He has, like all artists, a strong creative force and crucially he understood how to bring that to the fore when contributing to creative direction with ease and tact, proving skilled in dealing with multiple stakeholder requirements. A pleasure to work with and should circumstance arise would have him in my team any day.

Gavin Attard | Digital Marketing Manager EU | SAE Institute

I have used Kieran's talents as a graphic designer numerous times for projects related to Energy Groove Radio. Kieran has demonstrated time & time again that he can not only deliver a quality product, but produce a stunning graphic in a timely manner. He is more than adequate with communication, and has always collaborated professionally to reach the desired result should there be any issues or challenges.

Brad Duence | Regional Manager | Energy Groove Radio
